

MEMBERSHIP DUES (2020/2021)

Effective for members joining or renewing on or after 1/1/2020

The Open Mobility Foundation (OMF) is a non-profit open-source software foundation with a mission to transform the way cities manage transportation in the modern era using well-designed, open-source data standards and software. We operate as a public-private partnership that brings together cities, mobility companies, and software vendors to co-create technology that facilitates digital-savvy approaches to regulation, scalable deployment of new mobility services, and the management of public space for the public good.

Membership in the OMF is free for cities and government agencies. Private sector members pay annual dues. Some of the direct benefits of membership:

- Participation in OMF leadership roles and committees
- Access to member engagement events and programming
- Seat at the table to shape the direction of OMF and its work
- Public recognition of membership on OMF website and marketing materials

In addition, joining the OMF helps private sector companies to:

- Demonstrate a willingness to work with cities
- Encourage a more uniform regulatory environment and technology marketplace
- Access city perspectives on emerging mobility services
- Build relationships with key ecosystem participants

Membership Levels

OMF offers two levels of membership: Premier and Associate. All member organizations are able to access member engagement events and content, attend board/member meetings, and join working groups and committees. However, only Premier members are eligible to be elected to the Technology Council, serve as voting members in committees, or chair a working group steering committee.

Dues Schedule

Membership dues are based on company size, as measured by full-time equivalent (FTE) headcount. The table below shows annual dues based on organization size:

FTEs	<10	10-100	101-500	501-1,500	>1,500
Premier	n/a (*)	\$25,000	\$50,000	\$100,000	\$150,000
Associate	\$10,000	\$17,500	\$35,000	\$70,000	\$105,000

(*) To ensure that Technology Council members represent organizations with capacity to contribute to the OMF's work, only Associate membership is available to companies with fewer than 10 FTEs.
